SUN TEKSTİL

We are part of the Borsa Istanbul Sustainability Index.

We were among the organisations that contributed to the WBCSD - Circular Transition Indicators (CTI) "Sector guidance - Fashion and Textiles" guide.

We were evaluated by SAHA Management Services with a Corporate Governance Rating Score of 9.3 (Max: 10) and included in the BIST Corporate Governance Index.

We developed the Microsoft Sustainability Manager Supplier Portal in cooperation with NTT Data and Microsoft.

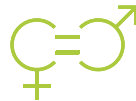

We have been awarded the Oeko-Tex Standard 100 certificate.

We changed our working rhythm with the hybrid working model.

We continued to integrate women into business life with the Sun Tekstil Vocational Training and Development Centre (MEGEM), graduating 13 people from the programme.

We produced 63% of all our products using sustainable raw materials.

We presented 38% of all our designs in the digital environment, finished the models selected by our customers in the digital environment and produced physical samples, reducing the production of physical samples for this product group by 70%.

We supported a total of 153 students in their development journey with our "The Future is at Sun", "Sun Design Project" and "Digitalise the Next" young talent programmes and internship programmes.

We became Turkey's champion in the Innovation Resources category of INOVALIG.

We received the ETIKA Turkey Ethics Award for the 9th time.

As Sun Tekstil and Ekoten, we have created value by partnering for good through 17 social responsibility projects, 4 scholarship programmes, 16 NGO memberships and 8 sponsorships.

EKOTEN

We are carrying out the field work for our advanced treatment plant, which will provide 95% water recovery.

We reduced our water consumption by 53% in total and 68% per unit product (kg fabric) compared to our base year 2001.

We have reduced our greenhouse gas emissions by 55% compared to 2012, our baseline year. We have reduced our emissions per unit of product (tonne of fabric) by 54% compared to 2012 and by 11% compared to 2022.

We have been rated A-/Leadership in the Carbon Disclosure Project's (CDP) Climate Change Programme for 2023.

We have submitted our science-based targets to the Science Based Targets Initiative (SBTi) platform for evaluation and validation.

We have been included in the Global Leaders List for three consecutive years by receiving the score from the CDP Supplier Relations Rating Programme (SER).

We have developed 83% of the collections we have developed in accordance with the sustainable fabric certificate.

We reduced our Scope 1 emissions by 19% by increasing our biomass utilisation rate in steam generation.

We expanded the artificial intelligence-based automatic quality control systems used in our knitting machines and continued our work with 24 machines.

"WE DESIGN A SUSTAINABLE FUTURE TOGETHER"
